

Keys to an “A” 353 Final Project

- 1. Meet all the expectations laid out in your proposal**
- 2. More than following a tutorial**
- 3. Thoroughly documented (testing, resource files, image files, problems, etc...)**
- 4. App. functions perfectly on the Web – this includes optimization, preloaders**
- 5. Amazing graphics, animation, media, and scripting**
- 6. Professionally submitted project packet – including a G drive submission**
- 7. THOROUGHLY COMMENTING YOUR CODE – will not be able to get anything above a “C” without it**
- 8. Innovation**
- 9. Going above and beyond**
 - a. Flexible GUI’s**
 - b. Integrating other technologies**
 - c. Using other Flash technologies (AIR, Flash Lite, Papervision)**
 - d. Testing – (with a solid analysis and reworking of design)**
