

## **CGT 141/CPT 141 Lecture 21 Wk 13**

### **Working with XML & CSS**

Talk about Instructor Evaluation and Exercise 20.

#### Formatting XML with CSS

- XML can be formatted with:
  - HTML
  - CSS
  - XSL (Extensible Stylesheet Language)
    - XSL is to XML what CSS is to HTML
    - Still being solidified.
- CSS can be applied to an XML document

```
<?xml-stylesheet type="text/css" href="mystyles.css"?>
```
